2800 Thornton Ave, Burbank, CA 91504

PROFESSIONAL SUMMARY

Project and technical program manager with 10 years delivering cross-functional programs across technology, operations, and process improvement. Promoted from front desk to Senior Technical Programs Manager over seven years at a fast-growing staffing company, then built and launched a startup's web and mobile platform as its technology lead. Hands-on depth in AI automation, APIs, and databases bridges engineering and business teams to surface risks early and keep programs on schedule.

CORE COMPETENCIES

Program & Project Management: Strategic Planning · Cross-Functional Scheduling · Timeline & Scenario Planning · Risk Identification & Mitigation · Governance & Stakeholder Communication · Agile & Scrum

Process & Delivery: Process Improvement · Requirements Gathering · QA & User Acceptance Testing · Release Management · Change Management · Capacity Planning & Forecasting · Vendor & Contract Management · Regulatory Compliance

Technical & Tools: AI Workflow Automation · Power Automate · Claude & OpenAI APIs · Playwright · Python · SQL / PostgreSQL · REST APIs & Integrations · KPI Dashboards · Jira · Confluence · Excel

PROFESSIONAL EXPERIENCE

PRISM Talent Group | Los Angeles, CA **Jun 2026 – Sep 2026**

Chief Technology Officer

- Built and launched the company's web and mobile operating platform (Python/FastAPI, PostgreSQL, React Native) with 15 vendor and API integrations, owning requirements, QA, and release end to end.
- Managed cross-functional schedules and technology delivery, reporting to the CEO on infrastructure, vendor contracts, system integrations, and regulatory compliance timelines.
- Standardized the placement process from intake and candidate outreach through handoffs and tracking, with clear ownership and documented workflows that removed hours of manual follow-up each week.
- Delivered real-time KPI dashboards giving leadership live visibility into pipeline health, fill rates, and placement performance.

Culinary Staffing Services | Los Angeles, CA **May 2019 – Jun 2026**

Senior Technical Programs Manager (Oct 2022–Jun 2026) · Staffing Coordinator (May 2019–Oct 2022)

- Partnered with the COO on strategic planning and ran cross-functional programs across Marketing, Sales, Staffing, HR, Recruiting, and Payroll, owning schedules, milestones, and process design.
- Designed and shipped dozens of AI automations (Power Automate, Claude and OpenAI APIs, Playwright) for onboarding, compliance, and reporting, supporting up to 100 new hires a week and cutting HR labor 97% (80+ staff hours per week).
- Automated eWOTC tax-credit filings for hundreds of employees per batch (data extraction, state-format transformation, validation, upload), turning weeks of manual work into 15 minutes a week; part of the compliance improvements behind 87% year-over-year revenue growth (2022–2023).
- Led the client-facing scheduling and ordering app for ~250 clients with an outside development team: wrote requirements and tickets, ran testing, and coordinated releases across 6 vendor integrations.
- Managed budgeting, forecasting, and invoicing, building performance reports that exposed margin and cost by client and team to support leadership decisions.

Bradco Kitchen + Design | Los Angeles, CA **Aug 2016 – Apr 2019**

Showroom Manager

- Managed project schedules, vendor orders, lead times, and regulatory and permitting compliance for design and construction projects across Southern California.
- Owned cost tracking and margin reporting to protect project budgets; mentored junior staff and introduced process improvements that raised team output and customer satisfaction.

Auster Rubber Company | Brooklyn, NY **Jun 2015 – Jul 2016**

Inside Sales

- Coordinated production, procurement, and logistics schedules for custom industrial components on municipal infrastructure projects, managing cross-functional timelines and vendor commitments to prevent cost overruns.

EDUCATION

Holy Cross College | Notre Dame, IN · Theology and Philosophy coursework 2006 – 2010
