

JAKE BIDDLECOME

Chief Technology Officer | AI-Driven Platform Architecture & Engineering Leadership

Los Angeles, CA | 213-924-4006 | jake.biddlecome@gmail.com
www.jakebiddlecome.com | linkedin.com/in/jake-biddlecome-03883228

PROFESSIONAL SUMMARY

Technology executive with 10+ years leading platform architecture, AI/LLM integration, and cross-functional operations across staffing, construction, and manufacturing. Built a production talent platform from the ground up (Python/FastAPI, PostgreSQL, React Native/Expo, Railway) and shipped LLM-powered automation that cut HR labor by 97% and supported 87% year-over-year revenue growth. Hands-on leader who pairs engineering depth with ownership of budgets, compliance, data governance, and team development.

CORE COMPETENCIES

Leadership: Technology Strategy & Roadmaps · Cross-Functional Team Leadership · Budgeting & Cost Control · Compliance & Risk Management · Vendor & Stakeholder Management

Engineering: Platform Architecture · Python / FastAPI · PostgreSQL · React / React Native (Expo) · REST APIs · Cloud Infrastructure & DevOps (Railway, CI/CD) · Data Governance & Security

AI & Automation: LLM Integration (OpenAI, Anthropic) · Structured LLM Output · AI-Powered Workflow Automation · Machine Learning · Real-Time Analytics Dashboards

PROFESSIONAL EXPERIENCE

PRISM Talent Group — Los Angeles, CA

Jun 2026 – Present

Chief Technology Officer

- Own technology strategy and the full engineering roadmap; architected and built the company's core talent platform from the ground up on Python/FastAPI, PostgreSQL, and React Native/Expo, deployed on Railway.
- Designed and shipped an AI candidate-matching and resume-screening engine using structured LLM output (OpenAI / Anthropic), scoring applicants against open roles to accelerate placements and cut manual screening time.
- Automated the recruiting pipeline end to end — candidate outreach, status handoffs, and concierge-style tracking — standardizing process across the team and eliminating hours of manual follow-up each week.
- Established the cloud, deployment, and data foundation plus real-time dashboards that give leadership live visibility into pipeline health and placement metrics; set the standards for data governance, security, and system reliability.

Culinary Staffing Services — Los Angeles, CA

May 2019 – Jun 2026

Senior Technical Programs Manager

- Engineered dozens of AI-powered automations integrated with the company's application database, replacing manual workflows across Marketing, Sales, Staffing, HR, and Recruiting and surfacing insights that directly supported profit-margin management.
- Implemented AI-driven compliance and onboarding workflows, cutting HR labor by 97% and saving 80+ hours per week.
- Directed company-wide operations improvements that produced 87% year-over-year growth (2022–2023) through strategic planning and execution.
- Launched a client-facing scheduling and ordering application, increasing client autonomy and reducing internal workload.
- Managed budgeting, invoicing, and performance reporting across all departments, applying AI/ML systems to deliver real-time financial intelligence to leadership.

Bradco Kitchen + Design — Los Angeles, CA

Aug 2016 – May 2019

Showroom & Project Manager

- Oversaw daily operations and supply-chain workflows for design and construction projects across Southern California; streamlined permitting and ensured regulatory compliance.
- Controlled accounts receivable and job costing to improve profit margins; mentored junior staff and introduced process improvements that increased team output and customer satisfaction.

Auster Rubber Company — Brooklyn, NY

Jun 2016 – Jul 2017

Inside Sales & Project Manager

- Led production and logistics for custom industrial components on municipal infrastructure projects; negotiated vendor and contractor timelines to avoid cost overruns while maintaining compliance and customer satisfaction.

EDUCATION

Holy Cross College — Notre Dame, IN · Bachelor of Arts, Theology and Philosophy

2010
